3 Gallon Food Waste Collection Bags take the mess out of cleaning the kitchen compost pail. They are also great for refrigerated food storage. BioBags “breathe” without leaking. This unique feature allows heat and moisture to evaporate, which keeps food “fresher” longer. The **100 count** pack provides our customers with more bags for added convenience, bundled in **ready-to-ship packaging**.

13 Gallon Food Waste Collection Bags are sized equivalent to regular tall kitchen plastic bags and fit most kitchen waste cans. This sturdy bag is perfect for collecting food waste, paper and other compostable packaging items. Our 13 gallon size is also great for collecting outdoor organic waste from small gardening areas. The **48 count** pack provides our customers with more bags for added convenience, bundled in **ready-to-ship packaging**.

Pet Waste Bags are made from resin derived from plant starches, vegetable oils and compostable polymers. Great for communities, parks, public areas, events and outdoor waste stations. The **200 count** pack provides our customers with more bags for added convenience, bundled in **ready-to-ship packaging**. We’ve also added a **NEW** Pet Waste Bag with easy-to-tie **HANDLES** that make picking up and disposal easier. These come in a **150 count** pack bundled in **ready-to-ship packaging**.

- Certified Compostable, meets ASTM D6400 specifications
- Breathes naturally, allowing heat and moisture to escape or evaporate. This process allows food waste to dry, thus reducing the rate of bacterial build-up which causes odor
- Manufactured in the USA with resin sourced from Italy

Certifications
 Certified Compostable according to the European Standard EN 13432 and the US Standard ASTM D6400.
